TxAT/AGUILA AMMUNITION ANNOUNCE NEW HOLLOW POINT PRODUCT LINE

CONROE, TEXAS- January 22nd, 2018 – Texas Armament & Technology (TxAT) and Aguila Ammunition are excited to announce the addition of hollow point ammunition to their centerfire product line. The company will be adding 9mm, .380, .357, .40, .45 and 38 Special SJHP caliber rounds.

“Our customers have been asking, and patiently waiting for our hollow point to return to the market. We’re happy to not only bring it back, but to offer an extended product line that will be produced here, in Conroe, Texas,” states John Domolky, Director of Sales for TxAT/Aguila Ammunition. “Bringing production to the United States is something we’ve been working on for the past two years. We now have manufacturing capabilities to produce our ammo in Conroe, TX and we’re thrilled to be kicking off the new production facility with hollow points.”

Hollow point rounds are hard-hitting and extremely accurate, making them especially popular for carry and home self-defense. Unlike typical solid point rounds, they’re designed to open up and expand rapidly upon impact, which increases the effectiveness of the bullet and decreases the chances of over-penetration.

Aguila Ammunition is known as one of the largest rimfire manufacturers in the world, and is quickly gaining recognition among tactical, handgun, shotgun shooters and hunters alike. New Aguila products will be available at retailers and dealers nationwide. Visit their online dealer locator to find a dealer near you <https://www.aguilaammo.com/where-to-buy>.
